

PHOTO APPENDIX

The Animal Welfare Foundation and other NGOs have documented many violations of the Regulation on the Protection of Animals during Transport ((EC) 1/2005) including handling of animals: hitting and/or kicking, dragging animals by the head, ears, legs or tail, overuse of electric prods (too frequent or too long impulses, applied on forbidden body parts like face or anus), or handling them in a way that causes them unnecessary pain or suffering.

Below are pictures documenting some of these violations or their consequences.

List of Figures

- | | | |
|------------|--|----|
| Figure 1. | October 2021, cattle are being loaded on <i>Barhom</i> (renamed <i>Helen</i>) in Spain. | 2 |
